

VOTES FOR SCHOOLS

Are we accepting of different ways of life? (KS2) Should we all have to live in the same type of home? (KS1)

1CF: "It would be boring if we all had to live in the same type of house. Houses would have no individuality. It wouldn't be as exciting to go to a friend's house."

1MW: "People should be able to live wherever they want, and travellers shouldn't be told where to go."

2CH: "I like my home because it is full of happiness and love."

2KW/BC: "Comfort and happiness is most important to me."

3CL: "We should all be able to live how we want and where we want."

3SB: "Everyone should be able to live in their own way and live wherever they would like to."

4CH: "We shouldn't treat people differently just because they live in different ways. We are all different in some way."

4LW: "There is no need to be angry or upset towards the GRT people or anyone that lives differently. We should just be accepting of them."

5HM/KA: "It doesn't matter where people live as long as they look after the planet."

5RS: "It has been interesting to learn about the different traveller's culture."

6DA: "Some say yes, because we have dedicated month to celebrate GRT history. However, some of us think we aren't because we have just created a new law that can put GRT communities home and way of life at risk."

6KM: "No, people aren't doing enough to welcome different ethnicities! There are a few charities to help, though that isn't enough."
